Thave seen the statement made by sev- YALE FRESHIES' CHANCE. eral parties to the effect that Mr. McMillan was appointed a Park Commissioner on Columbia Would Row Them and Wisconthe recommendation of the trotting horsemen of this city. This is absurd. I never heard such nonsense. Mr. McMillan is an old member of the Driving Club, and was president of the Driving Club, and was president of it three years ago. He knows just what the gentlemen owners of this just what the gentlemen owners of this just what the gentlemen owners of the club fleet, which may be summarized as follows:

Schooners are divided into five classes, will may be summarized as follows:

Schooners are divided into five classes, with the way of roads, and proposes to use his influence in that direction.

Our organization will call a meeting for next weeks and I will offer a resolution looking toward the securing of the Bradman crew, said yesterday regarding the striper that Yale was trying to arrange a race on Lake Saltonstall between her own freshman crew and those of Columb blat and Wisconsin University, that, while the hurst avenue extension; not that we want to hurt sports or cause the owners or lessees of the property through which the street will pass any unnecessary annoyance, but to complete a portion of a road which will be a boon to us all.

"This is the greatest city in America and our trotters and road horses represent fully \$1,500,000, and still we have not a poor man, but I have a horse that I would not part with for \$10,000, and I am ompelled to keep within the park limits then I drive out, simply because the only so't roads are found there. No man with a valuable horse can afford to take him out on the hard pavements of this city.

"Some people will tell you that we have seventh avenue. Why, that road is a disgrace to the city.

"It is my impression that if we had roads like Brooklyn or Jersey, our gentlemen drivers would double in numbers in a short time. I am not against legitimate aport, as I said before, but there is more room in other places almost as convenient as the present Polo Grounds.

Yesterday Colone! N. V. K. Ornger called a first with Figure 10 of the Brooklyn or Jersey, our gentlemen drivers would double in numbers in a short time. I am not against legitimate aport, as I said before, but there is more room in other places almost as convenient as the present Polo Grounds.

Yesterday Colone! N. V. K. Ornger called a first with read in the lessee of Manaham. Sield and Polo Grounds, and had a long talk with him over the matter. Mr. Gruger was inclined to believe that the to come. He said that Mr. McMillan's proposition had not been formally presented to the Board, and until it was, he still be could not tell what action would be taken.

Ex-Mayor Smith P. Eir, another member of the Park Board, stated that nothing

Murphy's promise is based upon his passing up his examinations in March.

Murphy is a first-class scholar and took a very high stand in the academic department of Yale and in the Yale medical school. During the past year he has been in the Believue Medical School, in New York City, and has been trying to finish the work of the year by the 1st of April, to enable him to again pay his school expenses by his Summer work on the diamond.

Sloops, cutters and yawls are divided into three classes for larger vessels, viz.: I Between sixty and seventy feet, seventy and eighty feet, and over eighty feet racing length, while smaller vessels, including the above three types of yachts, are divided into classes between thirty and thirty-six feet, thirty-six and forty-three feet, forty-three and fifty-one feet, and fifty-one and sixty feet racing length, also providing a special thirty-four-foot rating class.

The fourth series includes small sloops not over twenty-five feet and between twenty-five and thirty feet, and also contains sub-divisions for cabin cathoats. The open yachts are divided into five classes, two of which are the new twenty-one-foot special and a half-rate classes.

The measurement rules are also altered to read as follows:

A perpendicular line is to be taken along the after side of the mainmast from the under side of the sheave of the highest halpard block or sheave on the topmast, to the after side of boom when resting on the saddle, or on the lowest part of goose-neck, the distance of which point from the main deck to deck house shall be recorded by the measurer, together with other points used in the measurements.

men will again return to the ranks of the Simon Pure, haloed amateurs, from which they were forced by the edict of Chairman Gideon and his Racing Board, while many of the best known and record men will undoubtedly join their professional brethren.

The re-entry of the Class B men who will return to the Class A fold will inject into that body of young and aspiring racing men a new element of uncertainty, which will revive the somewhat faded interest in its doings, while the scoon-to-be-professionals will in a few weeks be attempting also to demonstrate the superiority of the old Class B timber over all other. As far as the local racing men who have just been deprived of their standing are concerned, it matters little, for their minds have long been made up, and they are now at liberty to follow their own bent and inclinations.

Even should the Racing Board accept the suggestion of the National Assembly and commute the life suspension of Titus and his team associate, it will prevent him being a racing factor for the better part of the present year.

iff's jury, which awarded David Gideon \$15,000 in his suit for sinnder. Judge Truax denied the motion, with \$510 costs to be paid by the appellant.

The case will now be carried to the Court of Appeals unless some settlement is agreed upon.

Mr. Dwyer stated before he left for his trip in the South, that he would fight the case to the end, no matter what the cost might be, but friends powerful in racing circles are striving to end the matter out of court, and the general belief is that they will succeed in convincing both parties that a further ventilation of their troubles is sure to prove harmful to the sport.

When they are whistling for \$25,000 they have lost. Pittsburg Phil is known in the ring as one of the wise ones. He had a few bad days when he commenced operations here, and it was not long before he had parted with a way as to win that back, and is now a few dollars to the good.

George Keyes, Phil's betting commissioner, who is a mild plunger on his own responsibility, was also a loser at first, but he has pulled out and is now comfortably speculating with money he has won. Barney Schrieber is also a small loser, and so are most of other pencilers laying odds.
